

Lenovo ThinkAgile HX / Nutanix Technical Workshop

Duration: 2 days

Max Capacity: 16 students

PURPOSE

This course introduces you to the products, capabilities, and technologies that serve as the foundation of Nutanix's solution. We will go deeper into essential Nutanix products – AOS, AHV, and Prism – while discussing how these products were designed to solve business challenges.

You will also get change to connect to ThinkAgile HX Cluster and become familiar with Initial Setup procedure, Cluster Deployment and do hands-on on Cluster configuring your own virtual environment, protect VMs, migrate VM from VMware vSAN into Nutanix etc...

AUDIENCE

This course is intended for presales and technicians, who would like to become familiar with Nutanix Hyperconverged Solution and plan to implement or manage that environment.
